- Thank you to those that responded to my emails about membership cards that were returned. I am still waiting on an email response from one club for a couple of members. It is super important that we have accurate and current address information in the database for members as well as email information. This is the only way that national is able to correspond with members with the monthly national officer updates and for monthly blue bars, etc.
- REMINDERS:
- If you need help adding members to the database and are running into any issues, please reach out. I am here to help. There is also a Governor's User Guide in the members only area. Once you log in, click on the "Membership Database" tab on the left and then choose "User Guides" from the drop-down menu and then "Governors User Guide" from the next drop-down menu.
- Club renewals are due earlier this year as we need more time to process things in the database. Last year was a bit of a disaster, so we need to regroup for this year. All renewals must be in to me with correct payments received NO LATER than November 15th. Please plan accordingly based on what this means for your club renewal process.
- Please use August as a blackout for your new members. If you add new members in August, they will need to pay renewal again starting September 1st. So please hold all applications received during that period. If there is an issue with competition and we need to process something to get them insurance coverage, please reach out to me so we can work through this together.
- New and updated insurance information is out from our Business Manager Jeanne Cassel. She has worked hard to re-work the insurance FAQ's to make it easier to understand. Please share this with your club board and members.
